## HOUSE JOINT RESOLUTION NO. 16

Offered January 8, 2014

Prefiled December 10, 2013

*Establishing a joint subcommittee to formulate recommendations for the development of a comprehensive and coordinated planning effort to address recurrent flooding. Report.*

Patrons—Stolle, Davis, DeSteph, Hester, Howell, A.T., Joannou, Knight, Krupicka and Minchew;  
Senators: Lewis and McWaters

Referred to Committee on Rules

WHEREAS, House Joint Resolution 50 and Senate Joint Resolution 76 (2012) directed the Virginia Institute of Marine Science (VIMS) to study strategies for adaptation to prevent recurrent flooding in Tidewater and Eastern Shore Virginia localities; and

WHEREAS, the resulting VIMS report, entitled "Recurrent Flooding Study for Tidewater Virginia," published as Senate Document 3 (2013), stated that recurrent flooding impacts all localities in Virginia's coastal zone and is predicted to become worse over reasonable planning horizons (20 to 50 years); and

WHEREAS, VIMS found that "[r]ecurrent flooding is flooding that occurs repeatedly in the same area over time due to precipitation events, high tides or storm surge. In coastal Virginia, all three of these factors cause recurrent flooding, and all three weather events are predicted to get worse, resulting in more frequent or larger scale flood events"; and

WHEREAS, VIMS found that "[i]mpacts from flooding can range from temporary road closures to the loss of homes, loss of businesses, property and life. In coastal Virginia, the cost of large storm damage can range from millions to hundreds of millions of dollars per storm. With a long history of flooding from coastal storms (first reference to storm related flooding was in 1667), there is a keen interest in Virginia to identify areas of potential flooding and establish measures (adaptation strategies) to reduce the impact of future flood events"; and

WHEREAS, VIMS found that a review of global flood management strategies suggests that it is possible for Virginia to have an effective flood response, but such efforts may take 20 to 30 years to effectively plan and implement; and

WHEREAS, VIMS found that an optimal flood management strategy must be flexible and match adaptation options to the unique circumstances of each coastal locality and the associated evolving risks; and

WHEREAS, VIMS offered several recommendations, including that the Commonwealth, working with its coastal localities, (i) should begin comprehensive and coordinated planning efforts; (ii) initiate identification, collection, and analysis of data needed to support effective planning for response efforts; and (iii) take a lead role in addressing recurrent flooding in Virginia for the following reasons: (a) accessing relevant federal resources for planning and mitigation may be enhanced through state mediation, (b) flooding problems are linked to water bodies and therefore often transcend locality boundaries, and (c) prioritizing flood management actions must be based in part on risk, and therefore, the Commonwealth must oversee the necessary studies to determine adaptation strategies as well as implementation of the agreed upon strategies; and

WHEREAS, the Joint Legislative Audit and Review Commission (JLARC) study mandated by General Assembly House Joint Resolution 132 and presented on October 15, 2013, entitled "Review of Disaster Preparedness Planning in Virginia," stated, "[t]he state generally has strong disaster response plans, but deficiencies in evacuation and shelter plans may compromise the safety of the Hampton Roads population during a catastrophic disaster"; and

WHEREAS, the JLARC study further noted that if four key assumptions in the state's current evacuation plan do not hold, "timely hurricane evacuations could be compromised," placing citizens at risk after the storm; and

WHEREAS, the impact of flooding affects areas outside of the ocean and Chesapeake Bay watersheds, as experienced in 1969 when Hurricane Camille spawned destruction and the loss of lives in Nelson County as well as severe flooding in the Valley, and in 1972 when Hurricane Agnes notably impacted Central and Southwest Virginia; and

WHEREAS, many Virginia communities regularly battle recurring flooding from nearby rivers and runoff as well as flooding associated with aging public and private dams; and

WHEREAS, a number of Virginia-based federal (including military), state, regional, and local agencies; private and not-for-profit groups; and several colleges and universities are actively examining issues resulting from recurrent flooding in Virginia's coastal communities and investing in specific flood

58 mitigation strategies; now, therefore, be it

59 RESOLVED by the House of Delegates, the Senate concurring, That a joint subcommittee be  
60 established to formulate recommendations for the development of a comprehensive and coordinated  
61 planning effort to address recurrent flooding. The joint subcommittee shall have a total membership of  
62 15 members that shall consist of eight legislative members and seven nonlegislative citizen members.  
63 Members shall be appointed as follows: five members of the House of Delegates to be appointed by the  
64 Speaker of the House of Delegates in accordance with the principles of proportional representation  
65 contained in the Rules of the House of Delegates; three members of the Senate to be appointed by the  
66 Senate Committee on Rules; four nonlegislative citizen members, one of whom shall be a local official  
67 representing Virginia's flood-prone communities, two of whom shall be business leaders, and one of  
68 whom shall be a military official representing a federal installation, to be appointed by the Speaker of  
69 the House of Delegates; and three nonlegislative citizen members, one of whom shall be a local official  
70 representing Virginia's flood-prone communities and one of whom shall be business leader, and one of  
71 whom shall be a representative of the environmental community, to be appointed by the Senate  
72 Committee on Rules. Nonlegislative citizen members of the joint subcommittee shall be citizens of the  
73 Commonwealth of Virginia. Unless otherwise approved in writing by the chairman of the joint  
74 subcommittee and the respective Clerk, nonlegislative citizen members shall only be reimbursed for  
75 travel originating and ending within the Commonwealth of Virginia for the purpose of attending  
76 meetings. If a companion joint resolution of the other chamber is agreed to, written authorization of both  
77 Clerks shall be required. The joint subcommittee shall elect a chairman and vice-chairman from among  
78 its membership, who shall be members of the General Assembly.

79 In conducting its review, the joint subcommittee shall recommend short- and long-term strategies for  
80 minimizing the impact of recurrent flooding.

81 Administrative staff support shall be provided by the Office of the Clerk of the House of Delegates.  
82 Legal, research, policy analysis, and other services as requested by the joint subcommittee shall be  
83 provided by the Division of Legislative Services. Technical assistance shall be provided by Virginia  
84 college and university faculty with expertise in the subject matter. All agencies of the Commonwealth  
85 shall provide assistance to the joint subcommittee for this review, upon request.

86 The joint subcommittee shall be limited to four meetings for the 2014 interim and four meetings for  
87 the 2015 interim, and the direct costs of this study shall not exceed \$19,840 for each year without  
88 approval as set out in this resolution. Approval for unbudgeted nonmember-related expenses shall require  
89 the written authorization of the chairman of the joint subcommittee and the respective Clerk. If a  
90 companion joint resolution of the other chamber is agreed to, written authorization of both Clerks shall  
91 be required.

92 No recommendation of the joint subcommittee shall be adopted if a majority of the House members  
93 or a majority of the Senate members appointed to the joint subcommittee (i) vote against the  
94 recommendation and (ii) vote for the recommendation to fail notwithstanding the majority vote of the  
95 joint subcommittee.

96 The joint subcommittee shall complete its meetings for the first year by November 30, 2014, and for  
97 the second year by November 30, 2015, and the chairman shall submit to the Division of Legislative  
98 Automated Systems an executive summary of its findings and recommendations no later than the first  
99 day of the next Regular Session of the General Assembly for each year. Each executive summary shall  
100 state whether the joint subcommittee intends to submit to the General Assembly and the Governor a  
101 report of its findings and recommendations for publication as a House or Senate document. The  
102 executive summaries and reports shall be submitted as provided in the procedures of the Division of  
103 Legislative Automated Systems for the processing of legislative documents and reports and shall be  
104 posted on the General Assembly's website.

105 Implementation of this resolution is subject to subsequent approval and certification by the Joint  
106 Rules Committee. The Committee may approve or disapprove expenditures for the joint subcommittee's  
107 review, extend or delay the period for the conduct of the review, or authorize additional meetings during  
108 the 2014 interim.
