178 are projected to affect key economic indicators of employment, income, educational attainment, amount
179 of Virginia-grown agricultural and forestal products used by the project, and return on investment.*

180 D. *The Commission shall develop a publicly available online database of all Commission awards,
181 listing for each project the project's goals, the means by which the project fits into the Strategic Plan,

183 awarded to the project through any prior grants.

184 E. The Commission shall submit a report annually to the Governor and the General Assembly.

185 **§ 3.2-3104. Tobacco Indemnification and Community Revitalization Endowment.**

186 A. There is hereby established in the state treasury a special fund to be designated the "Tobacco
187 Indemnification and Community Revitalization Endowment." The Endowment shall receive any proceeds
188 from any sale of all or any portion of the Commission Allocation, and any gifts, grants and
189 contributions that are specifically designated for inclusion in such Endowment. No part of the
190 Endowment, neither corpus nor income, or interest thereon, shall revert to the general fund of the state
191 treasury. The Endowment shall be under the management and control of the Treasury Board, and the
192 Treasury Board shall have such powers and authority as may be necessary to exercise such management
193 and control consistent with the provisions of this section. The income of the Endowment shall be paid
194 out, not less than annually, to the Fund. In addition, up to ~~10~~ six percent of the corpus of the
195 Endowment shall be paid to the Fund annually upon request of the Commission, *by majority vote*, to the
196 Treasury Board. Upon two-thirds vote of the Commission, up to ~~15~~ 10 percent of the corpus of the
197 Endowment shall be so paid. *Upon three-fourths vote of the Commission, up to 15 percent of the corpus*
198 *of the Endowment shall be so paid.* No use of proceeds shall be made that would cause bonds issued on
199 a tax-exempt basis to be deemed taxable. For purposes of this section, "income" of the Endowment
200 means at the time of determination the lesser of the available cash in, or the realized investment income
201 for the applicable period of, the Endowment, and "corpus" of the Endowment means at the time of
202 determination the sum of the proceeds from the sale of all or any portion of the Commission Allocation,
203 any gifts, grants, and contributions that have been credited to such Endowment, and any income not
204 appropriated and withdrawn from the Endowment prior to June 30 of each year, less withdrawals from
205 the corpus. Determinations by the Treasury Board, or the State Treasurer on behalf of the Treasury
206 Board, as to the amount of income or the amount of the corpus shall be conclusive.

207 B. The Treasury Board shall serve as trustee of the Endowment and the corpus and income of the
208 Endowment shall be withdrawn and credited to the Fund by order of the Treasury Board as provided in
209 subsection A. The State Treasurer shall be custodian of the funds credited to the Endowment. The
210 Treasury Board shall have full power to invest and reinvest funds credited to the Endowment in
211 accordance with the provisions of the Uniform Prudent Management of Institutional Funds Act
212 (§ 64.2-1100 et seq.) and, in addition, as otherwise provided by law. The Treasury Board may borrow
213 money in such amounts as may be necessary whenever in its judgment it would be more advantageous
214 to borrow money than to sell securities held for the Fund. Any debt so incurred may be evidenced by
215 notes duly authorized by resolution of the Treasury Board, such notes to be retired no later than the end
216 of the biennium in which such debt is incurred. The Treasury Board may commingle, for purposes of
217 investment, the corpus of the Endowment provided that it shall appropriately account for the investments
218 credited to the Endowment. The Treasury Board may hire independent investment advisors and
219 managers as it deems appropriate to assist with investing the Endowment. The expenses of making and
220 disposing of investments, such as brokerage commissions, legal expenses related to a particular
221 transaction, investment advisory and management fees and expenses, transfer taxes, and other customary
222 transactional expenses shall be payable out of the income of the Endowment.

223 Not less than annually and more frequently if so desired by the Commission or requested by the
224 Treasury Board, the Commission shall provide to the Treasury Board schedules of anticipated
225 disbursements from the Fund for the current and succeeding fiscal year, and the Treasury Board shall, to
226 the extent practicable, take into account such schedules and changes thereto in scheduling maturities and
227 redemptions of its investments of the Endowment.

228 **§ 3.2-3108. Distribution of Fund.**

229 A. The Fund shall be distributed by the Commission for the following purposes:

230 1. The compensation of Virginia tobacco farmers for the decline or elimination of the tobacco quota
231 based on averaging the basic burley and flue-cured quota as allocated by the USDA for the crop years
232 1995 through 1998.

233 To the extent quota holders in Virginia are not otherwise compensated by a national tobacco
234 community trust fund or a federal tobacco loss assistance program that is based on substantially the
235 same distribution criteria established by the Commission for indemnification payments and to the extent
236 moneys are available in the Fund, the Fund shall be used to compensate quota holders in an amount
237 equal to the total lost asset value in quota incurred annually by such quota holders.

238 To the extent active tobacco producers in Virginia are not otherwise compensated by a national
239 tobacco community trust fund or a federal tobacco loss assistance program that is based on substantially
240 the same distribution criteria established by the Commission for indemnification payments and to the
241 extent moneys are available in the Fund, the Fund shall be used to compensate active tobacco producers
242 for the economic loss resulting from any annual quota reduction.

243 For the purposes of this section, the total asset loss value in quota and economic losses for tobacco
244 farmers in Virginia shall be estimated to be \$1.2 billion.

245 The Commission may establish criteria for determining economic loss resulting from any annual
246 quota reduction, including any similar criteria established pursuant to the creation of a national tobacco
247 community trust fund;

248 2. The stimulation of economic growth and development in tobacco-dependent communities in an
249 equitable manner throughout the southside Southside and southwest Southwest regions of the
250 Commonwealth, to assist such communities in reducing their dependency on, or finding alternative uses
251 for, tobacco and tobacco-related business; and

252 3- 2. Scientific research performed at one of the Commonwealth's National Cancer
253 Institute-designated research institutes designed to advance the treatment and prevention of cancers that
254 directly impact the citizens of tobacco-dependent communities throughout the southside Southside and
255 southwest Southwest regions of the Commonwealth.

256 B. The Commission may require that as a condition of receiving any grant or loan incentive that is
257 based on employment goals, a recipient company must provide copies of employer quarterly payroll
258 reports provided to the Virginia Employment Commission to verify the employment status of any
259 position included in the employment goal.

260 The Commission shall require that each project have an accountability matrix. For an economic
261 development program, the matrix shall be based on return on investment, jobs, wages, and capital
262 investment. For a scholarship program, the matrix shall be based on attainment of bachelor's degrees,
263 credentials, or jobs. For a health care program, the matrix shall be based on health care outcomes. For
264 an agriculture or forestry program, the matrix shall be based on jobs, capital investment, amount of
265 Virginia-grown agricultural and forestal products used by the project, projected impact on agricultural
266 and forestal producers, and a return on investment analysis.

267 The Commission shall require each applicant to provide with its application (i) baseline figures, (ii)
268 explicit and quantified outcome expectations, (iii) the method used to calculate outcome expectations,
269 (iv) details on the timing of the expected outcomes, and (v) a specific link to economic revitalization and
270 the Strategic Plan.

271 The Commission shall require that as a condition of receiving any grant or loan incentive each
272 project (a) demonstrate how it will address low employment levels, per capita income, educational
273 attainment, or other workforce indicators; (b) be consistent with the Strategic Plan; and (c) receive a
274 written recommendation as to its financial viability and feasibility from the Manager pursuant to
275 subdivision A 9 of § 3.2-3103.

276 **§ 3.2-3111. Confidentiality of information.**

277 A. The Commission shall hold in confidence the personal and financial information supplied to it, or
278 maintained by it, concerning tobacco farmers, including names, addresses, and payment information. The
279 Commission may require any tobacco farmer or other applicant for payments from the Fund to provide
280 his social security or taxpayer identification number.

281 B. Notwithstanding the foregoing, personal and financial information supplied to or maintained by
282 the Commission relating to tobacco farmers may be used, exchanged, and disclosed at the Commission's
283 discretion as may be necessary or appropriate to make payments under, administer, or enforce this
284 chapter and related state and federal laws, any other state or federal tobacco indemnification or loss
285 assistance program, or a national tobacco community trust fund.

286 C. Nothing in this section shall prohibit the Commission, in its discretion, from releasing any
287 information that has been transformed into a statistical or aggregate form that does not allow the
288 identification of the person who supplied particular information or the sum of money received by a
289 particular recipient.

290 D. Personal and financial information supplied by or maintained on persons or entities applying for
291 or receiving distributions from the Fund for economic growth and development, as well as specific
292 information relating to the amount and identity of recipients of such distributions, shall be subject to
293 disclosure in accordance with the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The
294 provisions of that Act applicable to records or meetings of the Virginia Economic Development
295 Partnership or other state or local economic development entities shall apply mutatis mutandis to the
296 Commission and the Manager selected pursuant to subdivision A 9 of § 3.2-3103.

297 E. The provisions of this section shall also apply to any department, agency, institution, political
298 subdivision, or employee of the Commonwealth or a political subdivision that receives personal or
299 financial information from the Commission in order to process checks for payments from the Fund or to
300 assist the Commission with the administration and enforcement of this chapter.
